About Me

I am very passionate of all things tech, but especially all things Apple. I love being able to create things that helps people in their day to day lives. I love reading and learning new things, I love working with a team, but can also work great alone as well.

Experience

IOS ENGINEER, FAMILYTECH; CINCINNATI, OH – NOV 2012 - PRESENT

As the sole iOS Engineer, I was tasked with creating and maintaining five separate iOS apps. The apps are used by hundreds of thousands of users in helping make their household a little easier to manage on a daily basis. I was also apart of many meetings in helping decide the future paths of features of the apps. While working here I've also been privileged to have multiple apps featured on the front page of the AppStore.

FREELANCE IOS DEVELOPER – DEC 2009 - NOV 2012

During my time as a freelance developer, I had the privilege of creating everything from a curriculum learning API based apps, to an animated book.

IT SPECIALIST, KEIR EDUCATIONAL RESOURCE; MIDDLETOWN, OH – NOV 2006 - NOV 2012

Responsible for building and maintaining their commerce site and online courses. I was also in charge of their server structure, maintenance and in-house IT support.

Education

Miami University – Associate - Computer Information Technology 2006

Skills

I have extensive experience in Xcode with both Objective C and Swift; SQLite and Realm mobile databases. Experience working in an Agile work environment with tight deadlines. Also have comprehensive experience with creating and have submitted many apps to Apple's App Store.
